Statement on suitability for contact with foodstuff

We certify that all our **ptfe glass filled molded and extruded products**, made of 15% and 25% GL resin, are suitable to get in contact with foodstuffs as per the following requirements:

USA regulations

FDA, Food and Drug Administration, Department of Health and Human Services, Code of Federal Regulations 21 CFR Ch. 1; USA regulations sections 177.1550 (a) (1) and (b)-Perfluorocarbon Resins.

The user must verify that the finished item, machined from the semifinished product, would be technically suitable for the requested application. The user must also verify that the finished item may not cause any modification to the organoleptic properties of the foodstuff and that the item's technological fitness it is assigned to, may be guaranteed.

For each foreign country market, where the items are introduced into, it is responsibility of the user to determine whether both material than items would comply with the applicable laws and regulations.
