Toxic Substances Control Act (TSCA) Statement

The Toxic Substances Control Act of 1976, as amended by the Lautenberg Chemical Safety Act, directs the Environmental Protection Agency (EPA) to promulgate regulations concerning the reporting, recordkeeping, testing, and restriction of chemical substances and mixtures manufactured in the United States or imported into the customs territory of the United States. 15 U.S.C. §§ 2601–2629. In accordance with the authority granted by Congress, the EPA has made rules concerning the production, importation, use, and disposal of over 86,000 regulated chemicals listed in its inventory. 40 C.F.R. pts. 700–799.

Vital Polymers, LLC takes all reasonable measures to ensure compliance with TSCA and other applicable environmental regulations, including:

- Regularly monitoring the *Federal Register* (the daily gazette of the federal government) for proposed regulations that may impact our company or our customers;
- Participating in the American Bar Association Section of Environment, Energy, and Resources to stay abreast of development in the field of environmental law;
- Maintaining a reporting and recordkeeping system in compliance with the requirements of TSCA § 8(a)(7).
